

BECOME A VETTED DCAP LOCAL SUPPLIER

DC COMMUNITY
ANCHOR PARTNERSHIP

About DCAP

The Coalition's DC Community Anchor Partnership (DCAP) is a high-impact collaborative of local hospitals, universities, utilities, and other companies helping to grow District-based businesses through new market access and business development opportunities.

The Coalition's Mission

We believe small and local businesses are the heart of DC's economy, yet, they're disproportionately underrepresented in the high-value contract procurement space. The Coalition is committed to increasing procurement opportunities with local small businesses with the end goal of creating more jobs, boosting incomes, and advancing inclusive prosperity in the District of Columbia.

Why Us?

The Coalition has served as a community quarterback in the District since 2000, cultivating deep and impactful relationships with both community institutions and local businesses. We know the buyers, we know the business owners, and we're ready to leverage our power to build a vibrant, competitive procurement landscape.
